
LC 71T MINI ORBITAL SANDER NOW AVAILABLE

Your Ideal Partner For Challenging Manufacturing

RUPES LC 71T Mini orbital sander is now available through our authorized distribution network almost worldwide.

The LC 71T joins the comprehensive range of RUPES Mini sanders and is specifically designed to prepare hard to reach surfaces such as wooden blinds, grilles, slats, banisters and similar surfaces not easily addressed by a traditional sander designs.

The specially engineered pad utilizes strategically placed holes and channels to guarantee maximum dust extraction even on the front end working area.

Equipped with a self-generated dust extraction system, this new mini sander can be used in combination with **Green Tech** Filter Unit provided in the kit. This combination ensures a clean workplace, plus extends the lifetime of both abrasive and tool.
